

# THE DUTCH WAY

Hematologist and patients create CML treatment guidelines together:

- 1 Shared Decision
- 2 Which TKI is the best for you?
- 3 When thinking of TFR?

Nederlandse Federatie van Kankerpatiënten organisaties

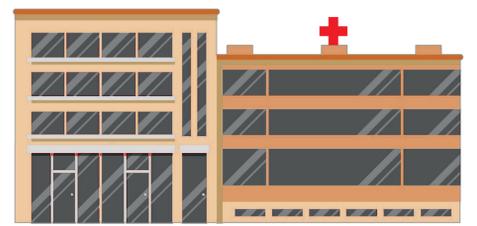

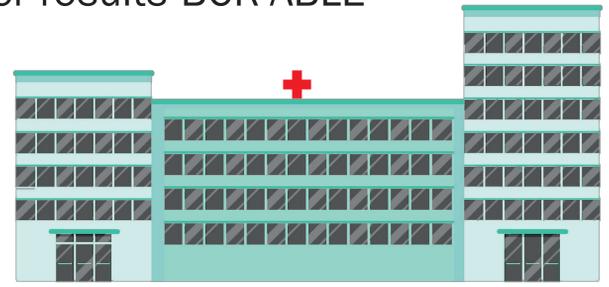

The Dutch Federation of Cancer Patient Organisations (NFK) is the umbrella organisation of 21 cancer patient organisations. Every cancer patient organisation is committed to patients with (a) certain form(s) of cancer or its consequences.

The umbrella organisation represents the general interests and supports the member organisations. Together we stand up for the interests of all people who have (had) cancer, their loved ones and people with a hereditary predisposition to cancer.
