

CHARITY FAİR

The "Charity Fair for Leukemia" is a special event organized to fund leukemia research and raise awareness. At this fair, community members sell various items such as handmade crafts, artworks, or second-hand goods to raise funds. The proceeds are used to help leukemia patients, support treatment, and contribute to research efforts.

WORLD CHRONIC MYELOID LEUKEMIA DAY

On September 22, we commemorate World Chronic Myeloid Leukemia Day, a time to unite those impacted by this condition and provide them with hope, care, and access to optimal treatment. Just as in previous years, in 2023, our Public Union organized educational seminars to raise awareness.

HOSPITAL VISIT

We also don't forget children with leukemia; we visit them regularly to provide support and companionship. You can check out our Instagram account for more activities.

BLOOD DONATION EVENT

Every year, we organize blood donation events several times to support the fight against leukemia. These events inform the community about leukemia and emphasize how lifesaving blood can be.
